Trademarks: Trademarks and service marks of Cadence Design Systems, Inc. contained in this document are attributed to Cadence with the appropriate symbol. For queries regarding Cadence's trademarks, contact the corporate legal department at the address shown above or call 1-800-862-4522.

All other trademarks are the property of their respective holders.

Restricted Permission: This publication is protected by copyright law and international treaties and contains trade secrets and proprietary information owned by Cadence. Unauthorized reproduction or distribution of this publication, or any portion of it, may result in civil and criminal penalties. Except as expressly permitted below, this publication may not be copied, reproduced, modified, published, uploaded, posted, transmitted, or distributed in any way, including automated processes, training or services involving a large language model, foundation model, deep machine learning, generative artificial intelligence, or any other similar process or technology, without prior written permission from Cadence. Unless otherwise agreed to by Cadence in writing, customers are granted permission to print one (1) hard copy of this publication subject to the following conditions:

1. The publication may be used only in accordance with a written agreement between Cadence and its customer.
2. The publication may not be modified in any way.
3. Any authorized copy of the publication or portion thereof must include all original copyright, trademark, and other proprietary notices and this permission statement.
4. The information contained in this document cannot be used in the development of like products or software, whether for internal or external use, and shall not be used for the benefit of any other party, whether or not for consideration.

Disclaimer: Information in this publication is subject to change without notice and does not represent a commitment on the part of Cadence. Except as may be explicitly set forth in such agreement, Cadence does not make, and expressly disclaims, any representations or warranties as to the completeness, accuracy or usefulness of the information contained in this document. Cadence does not warrant that use of such information will not infringe any third party rights, nor does Cadence assume any liability for damages or costs of any kind that may result from use of such information. Cadence is committed to using respectful language in our code and communications. We are also active in the removal and/or replacement of inappropriate language from existing content. This product documentation may however contain material that is no longer considered appropriate but still reflects long-standing industry terminology. Such content will be addressed at a time when the related software can be updated without end-user impact.

Restricted Rights: Use, duplication, or disclosure by the Government is subject to restrictions as set forth in FAR52.227-14 and DFAR252.227-7013 et seq. or its successor.

About This Manual

The Valus software is a library validation tool that performs exhaustive checking of the timing libraries. It ensures high-quality library inputs for full Cadence flow.

Audience

This document is intended for library developers, methodology engineers, and designers who need to perform timing library validation checks to detect potential library issues that may cause problems during timing analysis in downstream tools in the design flows.

How This Manual Is Organized

This manual is organized into sections that contain topics for one or more of the following areas:

- New checks, messages, or features in Valus.
- Enhancements made to existing messages or checks.

Related Documents

For more information about Valus, see the following document:

Valus User Guide

Provides information about using Valus checks and messages.

Release 25.11 Enhancements

- Added New Checks on page 6

Added New Checks

The following new checks have been added under the LIB_SEMANTIC category:

- [TECHLIB - 1481](#)
- [TECHLIB - 1483](#)

The following new check has been added under the LIB_TIMING category:

- [TECHLIB - 1482](#)

For more information, refer to [Valus Checks](#) in the *Valus User Guide*.
